- CAS encryption

## REACH MORE TV HOMES WITH COST-EFFECTIVE ACCESS TO SATELLITE DISTRIBUTION

Eutelsat's Digital Platforms (EDPs) give broadcasters immediate reach to the wide audiences available via satellite, without the need to invest in expensive multiplexing facilities.

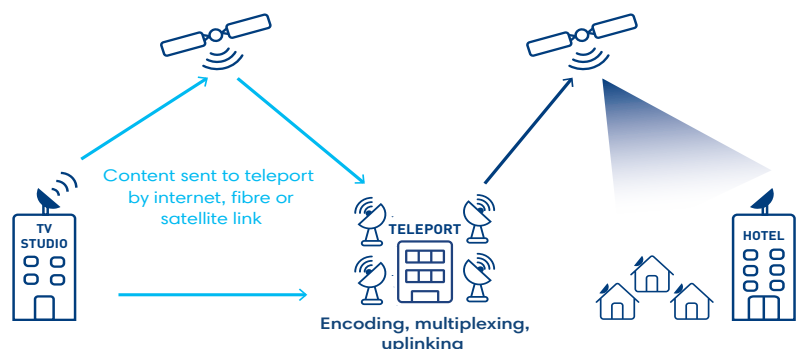

The turnkey service combines ground services (including contribution links, content multiplexing and uplinking) and satellite bandwidth, for cost-effective access to large established audiences.

Broadcasters can leverage the most economical distribution system for their channels, while keeping full control of their content.

### WHY CHOOSE A EUTELSAT DIGITAL PLATFORM?

- Immediate access to massive audiences
- No investment required in multiplexing facilities
- Simple and easy satellite delivery
- Flexible bit-rate options for different content types
- 24/7 monitoring and support

### HOW DOES IT WORK?
